

## Rupert Neve Designs Portico Plug-Ins V1.1 – version history

---

Fixed issues and feature additions.

| Area             | Title  |
|------------------|--|
| Feature addition | The Rupert Neve Designs Portico 5043 Compressor now contains a sidechaining function.  |
| Feature addition | Thanks to the latest VST 3.5 technology implemented in the Rupert Neve Designs plug-ins V 1.1, it is now possible to assign Quick Controls to specific buttons and knobs of the plug-ins by right-clicking on the respective function. |
| Routing          | An issue with regards to bus-assignment within the Cubase/Nuendo DAWs has been resolved.   |
