Version History

HALion 7.5.10/HALion Sonic 7.5.10

ID	Area	Issue
New Feature	Spectral Oscillator	In HALion, the parameters **Spectral Tonal Gain**, **Spectral Noise Gain**, and **Spectral Transient Gain** can now be modulated.
New Feature	Spectral Oscillator	In HALion, you can now click below the **Capture** and **Freeze** buttons to select them for modulation, without having to activate the **Capture** or **Freeze** buttons first.
New Feature	Wavetable Oscillator	In HALion, wavetables can now be created and edited via a HALion script, see the **HALion Script** documentation at Steinberg Developer Resource.
New Feature	Macro Page Editor	In HALion, the Macro Page now supports rotated label controls (0°, 90°, 180°, 270°).
New Feature	Quick Controls	In HALion and HALion Sonic, the new **Randomize Quick Controls** button allows you to randomize the settings for the quick controls.
HALLY-12138	General	Fixed an issue that caused Cubase to crash when removing HALion Sonic.
HALLY-11848	UI Scaling	Fixed a UI scaling issue that occurred when reopening HALion in Reaper.
HALLY-12193	Drag and Drop	Fixed a sample drag and drop issue that occurred with Ableton Live.

ID	Area	Issue
HALLY-11117	Macro Page Editor	Fixed an issue that caused macro page attachments to be lost when entering values on exported template parameters.
HALLY-12226	UI	Fixed an issue that prevented the context menu from appearing when clicking on the program name in the top bar.
HALLY-10507	Tagging	Fixed an issue that caused tags to be lost when saving programs with special characters in their names.
HALLY-10624	Browser	Fixed an issue causing incorrect paths when saving favorites in the **Browser**.
HALLY-12222	UI	Improved the responsiveness of the **MIDI Channel** selector in the **MIDI** editor in HALion and HALion Sonic.

HALion 7.5.0/HALion Sonic 7.5.0

ID	Area	Issue
HALLY-12096	Options	Fixed an issue that caused tooltips to be shown, even with the **Tooltip** option deactivated.
HALLY-12034	UI Scaling	Fixed an issue that caused the UI to shrink when HALion was opened in Fender Studio.
HALLY-11928	Import	Sample import was improved.
HALLY-10629	Save Dialog	The **Add Folder** dialog now sets the focus to the name field, allowing direct text input.
HALLY-10628	Program Tree	The selected item in the **Program Tree** is now highlighted across all columns, for better visibility.

ID	Area	Issue
HALLY-10768	Trigger Pads	Fixed a chord update issue that occurred when loading trigger pad presets while holding a trigger pad.
HALLY-10973	Macro Page Editor	Fixed a scaling issue affecting smaller oscilloscope controls.
HALLY-12084	Macro Page Editor	Fixed a macro page update issue that occurred when changing strings on exported label parameters.
HALLY-12022	HALion Sonic	Fixed an issue that activated a different tab when closing and reopening the plug-in window.

For information on the new features, please refer to the documentation on steinberg.help.

HALion 7.1.51/HALion Sonic 7.1.51

Area	Issue
Content	Fixed an issue that caused an incorrect "missing content" error message to appear during plug-in start.

HALion 7.1.50/HALion Sonic 7.1.50

ID	Area	Issue
New Feature	Plug-in UI scaling	You can now adjust the size of the user interface from -50% to +100% in 12.5% increments. This can improve readability on native 4K monitors, for example. When using HALion/HALion Sonic in Cubase/Nuendo, the available maximum and minimum scaling factors depend on the **UI Scaling** value that is set for the host application. For example, if **UI Scaling** is set to +50% in Cubase, the plug-in can only add a maximum of +50%. NOTE When using Cubase 15 and higher, **UI Scaling** must be applied via the **Function** menu, which is located in the HALion/HALion Sonic plug-in header. In this case, the **Options** page only displays the set **UI Scaling** value.
New Feature	Standalone UI Scaling	The **UI Scaling** option on the **General** page of the **Plug-in Preferences** dialog allows you to set the UI scaling for the standalone application. The range is the same as for the plug-in, see above. NOTE The **Options** page of the plug-in displays the **UI Scaling** value set in the **Preferences** dialog.
New Feature	MediaBay	The **Copy MediaBay Attributes** option on the context menu for presets allows you to use the attributes of existing presets in new custom presets.
HALLY-11142	General	Fixed an issue that caused the envelope grid to disappear.
HALLY-10974	General	Fixed a playback issue that occurred in the Anima layer of the preset "Strawberry - 130".
HALLY-10716	MediaBay	Fixed an issue where HALion Sonic did not properly restore the size and divider position of the docked **MediaBay**.

ID	Area	Issue
HALLY-7390	Surround Panner	Fixed an issue where the Front/Rear setting of the Surround Panner was not saved with a multi-program.
Content Fixes – These require a separate download		
HALLY-11193	Hot Brass	Fixed a quick control assignment issue for the “Hot Brass Split” preset.
HALLY-11477	FM-Lab	Fixed the pitch in the “Sports Fanfare” preset.

HALion 7.1.40/HALion Sonic 7.1.40

ID	Area	Issue
HALLY-11157	Load/Save	Fixed an issue that prevented subpresets of some HALion expansions from being accessible on the preset loader.
HALLY-11156	General	Fixed an issue that could result in the audio being overwritten with 4 GB of zeroes when tagging Broadcast Wave files.

HALion 7.1.30/HALion Sonic 7.1.30

ID	Area	Issue
HALLY-11060	FM oscillator	Fixed an issue that prevented FM operators from being muted.
HALLY-10964, HALLY-10816, HALLY-10975	General	Fixed several issues that sometimes caused crashes in Cubase 12/13.
HALLY-11107	General	Fixed a crash that occurred with incorrectly dimensioned HiDPI resources.
HALLY-11059	General	Fixed a crash that occurred when using HALion Sonic in Cubase 14.
HALLY-10986	General	Fixed a crash that occurred when switching presets in HALion Sonic.

ID	Area	Issue
HALLY-11076	General	Fixed an issue that could lead to a crash when deleting HALion subpresets.
HALLY-11022	General	Fixed a selection issue affecting pop-up menus.
HALLY-11086	Macro Page Editor	Fixed a display issue concerning the loop end marker in the waveform display.
HALLY-11047	General	Fixed a crash that occurred in the standalone version of HALion Sonic.
HALLY-11118	General	Fixed an issue that caused Cubase to freeze when MGuitar was loading.
HALLY-11050	Library Creator	Fixed a MediaBay issue that occurred when unmounting temporarily mounted VST sound files.
HALLY-11057	Library Creator	Added a warning message that is shown when users try to temporarily mount a VST Sound file that is already registered in the MediaBay.
HALLY-10588	Library Creator	Fixed an issue that prevented VST Sound files from being mounted temporarily.
HALLY-10448	Library Creator	Added a warning message that is shown when the Library Creator encounters incorrectly sized HiDPI images.
HALLY-11101	Macro Page Designer	Fixed an issue where duplicating templates with exported parameters led to incorrectly exported parameters for the duplicate.
HALLY-11020	Macro Page Designer	Fixed an update issue concerning the wavetable “PlayData” on the macro page display.

ID	Area	Issue
HALLY-10603	Macro Page Designer	Fixed a display issue in the internal script editor that occurred when text was entered that exceeded the width of the script editor window.
HALLY-11099	Macro Page Designer	Fixed a crash that occurred when connecting an envelope template to the Mode parameter.
HALLY-11102	Macro Page Designer	Fixed a crash that occurred sometimes when using pop-ups in Window mode.
HALLY-10995, HALLY-11047, HALLY-11066, HALLY-11088	macOS	Fixed a crash that occurred sometimes when using the standalone version of HALion.

HALion 7.1.20/HALion Sonic 7.1.20

ID	Area	Issue
HALLY-9698	Preview	Fixed previewing for some sample formats (for example, GS3, Akai, and Emu), which did not work as expected.
HALLY-10854	General	Fixed an issue where voices were cut off and the audio driver crashed.
HALLY-10717	Zone Editor	Fixed an issue where changing the pitch in the Sound Editor triggered an additional note.
HALLY-10718	Trigger Pads	Fixed an issue where trigger pads could not be triggered via MIDI trigger notes in the FM Lab preset “Waving”.
HALLY-10822	General	Fixed sound issues on Apple M1/2/3 processors.
HALLY-10837	General	Fixed an issue that caused Cubase to crash when quitting HALion.

ID	Area	Issue
HALLY-10906	Macro Page	Fixed an issue that caused submenus to close automatically in Bitwig.
HALLY-10808	General	Fixed crashes in Bitwig.
HALLY-10721	Zone Editor	Fixed issues with modulation destination assignments on macOS 13.6.7.
HALLY-10980	Effects	Fixed a VST Amp issue where the selected model was not always audible after loading a preset.
HALLY-10981	Zone Editor	Fixed an issue that caused the response times of the UI to increase when using large programs with a visible Zone Editor.

HALion 7.1.10/HALion Sonic 7.1.10

ID	Area	Issue
HALLY-10928	Load/Save	Fixed an issue where presets or .wav files from a mounted ISO file could not be seen or loaded.
HALLY-10687	General	Fixed the Mixer Channel template and the FX Meter template, which are part of the Basic Controls Library.
HALLY-10732	Macro Page Editor	Fixed an issue with an embedded UI script in the Macro Page Editor, where each save/reload operation added a space character at the end of every code line.
HALLY-10750	General	Fixed a HALion crash caused by a memory leak.
HALLY-10816	General	Fixed a crash that occurred when “Show Empty Slots” was active in HALion.

ID	Area	Issue
HALLY-10858	General	Fixed a crash that occurred when undoing the deletion of a program.
HALLY-10829	Envelope	Fixed an issue where the HALion zone envelopes were not in sync with the Mono Envelope.
HALLY-10622	General	Fixed an issue where the column divider could not be dragged far enough to the right in the Find Missing Samples dialog.
HALLY-9698	General	Fixed an issue with previewing samples in sample formats such as GS3, Akai, or Emu.
HALLY-10626	General	Fixed an issue where the Pan column could not be added to the Program Tree.
HALLY-10713	Save/Load	Fixed an issue where the Replace Layer command in the Program Tree context menu opened the Load Program dialog.
HALLY-10712	General	Fixed an issue where selecting items on pop-up menus required two clicks.
HALLY-10733	Macro Page Editor	Fixed an issue where the focused envelope node frame was always displayed in pink, ignoring the color definition in the Macro Page Editor.
HALLY-10896	General	Fixed an issue where HALion Sonic caused Nuendo to crash.
HALLY-10156	General	Fixed an issue with the XY control freezing in the AU version of HALion Sonic.
HALLY-10846	Save/Load	Fixed a crash that occurred when loading HALion Sonic user presets that included Studio Strings.
HALLY-10825	General	Fixed an issue where controller assignments were not persistent in HALion Sonic.

HALion 7.1.0/HALion Sonic 7.1.0

ID	Area	Issue
New Feature (HALion)	Spectral Oscillator	• Improved performance • Multi Stack Mode with 8 voices (Freq, Level, Pan) • MIDI Learn function for the stack frequency settings • Spectrum Blur feature • Improved formant preservation
New Feature (HALion)	Macro Page Editor	• Jump to Resource function on macro page controls • Ability to set the position within the sample display • Improved drawing routines for decors
New Feature (HALion)	General	Improved Previous/Next Preset switching.
New Feature (HALion)	Program Tree/Sample Editor	Added commands for reading markers from sample files.
New Feature (HALion)	Sample Editor	Added a new File Info field in the Sample Replace Dialog.
New Feature (HALion)	Mapping Editor	Improved Mapping Editor selection.
New Feature (HALion Sonic)	General	The Find Missing Samples dialog automatically opens listing any samples that the application was unable to detect.
HALLY-10436	Dorico	Fixed a HALion Sonic crash in Dorico.
HALLY-10283	MediaBay	Fixed a HALion crash that occurred when loading presets from the MediaBay.
HALLY-10530	macOS	Fixed a crash that occurred when loading layers by dragging them onto the Program Tree in HALion.

ID	Area	Issue
HALLY-10491	Surround Panner	Fixed a crash that occurred when loading the Surround Panner in HALion.
HALLY-10510	General	Fixed a HALion Sonic crash that occurred in Digital Performer.
HALLY-10407	General	Fixed a HALion Sonic crash that occurred when loading the plug-in.
HALLY-10351	General	Fixed a HALion crash.
HALLY-10517	Quick Controls	Fixed an issue affecting quick controls in HALion Sonic.
HALLY-10540	General	Fixed an EXS24 file import issue in HALion where samples could not be found.
HALLY-10515	macOS	Fixed a crash that occurred when loading samples by dragging them into HALion.
HALLY-10682	Load/Save	Fixed an issue where custom categories and subcategories were not saved with presets.
HALLY-10711	General	Fixed a crash in HALion/HALion Sonic that was related to an earlier D2D fix.
HALLY-10503	Sample Editor	Improved Auto zoom behavior in the slice editor in HALion.
HALLY-10181	Tuning Scale MIDI Module	Fixed an issue causing the Tuning Scale MIDI module not to work in combination with Iconica.
HALLY-10333	General	Fixed a faulty drag and drop behavior with OS scaling set to 125%.

HALion 7.0.20/HALion Sonic 7.0.20

ID	Area	Issue
HALLY-10029	General	Fixed a HALion crash that occurred when auditioning samples of an AKAI CD image.
HALLY-10226	Wavetable	Fixed a HALion crash that occurred when right-clicking the file name in the Wavetable editor.
HALLY-10189	Wavetable	Fixed a HALion crash that occurred when right-clicking the Filter view of the Wavetable editor.
HALLY-10273	Export/Import	Fixed a HALion issue where using Export All Programs from the Slot Rack exported layer presets instead of program presets.
HALLY-10206	General	Fixed a HALion Sonic crash in Dorico.
HALLY-102012	General	Fixed a HALion Sonic crash in Digital Performer.

HALion 7.0.10/HALion Sonic 7.0.10

ID	Area	Issue
HALLY-6337	General	Fixed an issue where selecting zones via MIDI did not work with HALion Sonic Drum Kit programs.
HALLY-9988, 9995	Mixer	Fixed a crash that occurred when loading FX via [Enter]/[Return] in the HALion 7 Mixer.
HALLY-10091	General	Fixed a crash that occurred when using "Clear Plug-in Instance".
HALLY-10035	Load/Save	Fixed a crash that occurred when loading presets in HALion Sonic.
HALLY-9952, 10008	Standalone	Fixed an issue that caused standalone audio not to work.

ID	Area	Issue
HALLY-10020	Editor	Added the missing Pedal/Manual subpage switch in the editor for organ zones.
HALLY-10038, 10043	General	Fixed a crash that occurred in HALion Sonic 7.
HALLY-10007	General	Fixed the HALion 7 help link which pointed to the HALion 6 documentation.
HALLY-10002	Wavetable	Fixed an issue where the Wavetable editor did not show waves in the overview.
HALLY-9999	General	Fixed a crash that occurred when clicking on an empty zone name in the Zone Editor header.
HALLY-9112	Content Creator	Fixed an issue where files were unassigned when loading a preset with REVerence in the Library Creator.
HALLY-10025	Load/Save	Fixed an issue where "Save as Default Screenset" did not affect the default screenset opened via the Home Screen.
HALLY-10027	Slot Rack	Fixed a crash that occurred when using [CTRL]+[C]/[V] in the Slot Rack.
HALLY-10028	Slot Rack	Fixed an issue where [CTRL]+[C] in the Slot Rack copied the multi program.
HALLY-10004	Spectral OSC	Fixed an issue causing missing play locators in the Sample view for the spectral oscillator.
HALLY-10057	Envelopes	Fixed an issue where HALion 7 envelope copy/paste led to unexpected results.
HALLY-10040	X-LFO	Fixed a HALion 7 crash that occurred when navigating between X-LFO source and target.

ID	Area	Issue
HALLY-10096	Load/Save	Fixed the function to save a program via the context menu in the load program slot on the top panel.
