Smart Click

Smart Click is a metronome app for iPhone, iPad, and iPod touch.

System Requirements

Smart Click requires iOS 9 or higher.

Metronome Page

On the metronome page, you can start/stop the metronome and adjust the tempo and the time signature.

1. Tempo field

Shows the current tempo and allows you to change the tempo by entering a numerical value.

2. Tap BPM button

Allows you to set the tempo by tapping.

3. Beat segments

Allow you to accent or to mute beats.

Each segment of the dial represents one beat. To change the pitch of a beat or to mute it, tap the corresponding segment repeatedly.

4. Start/Stop button

Starts/Stops the metronome.

5. Fine-tune dial

Allows you to fine-tune the tempo within the tempo range that is defined on the setup page.

6. Setup

Opens the setup page where you can select the metronome sound, define the tempo range of the fine-tune dial, and make settings for background audio and automatic screen lock.

7. Time signature

Shows the current time signature and allows you to change it.

8. Volume

Allows you to set the volume and to mute the metronome.

Setup Page

Sound Sets

Allows you to select one of the following metronome sounds:
Cubase, Wood Block, Cowbell, and Plastic Tube.

BPM Max/BPM Min

Allow you to define the range of the fine-tune dial.

Screen Always On

If this option is activated, the screen is not locked when Smart Click is running as foreground app.

Audio When App in Background

If this option is activated, the metronome keeps playing when the screen is locked or Smart Click is running in the background.

Setting the Tempo

Smart Click allows you to change the tempo of the metronome by tapping, by entering a numerical value, or by using the fine-tune dial.

NOTE

The tempo is set to 120 bpm when the app is opened.

To set the tempo, do one of the following:

- Tap the beat on the **Tap BPM** button.
- Tap the tempo field, enter a numerical value with the number pad, and tap the confirm button.
- Turn the fine-tune dial to the tempo that you want to use.

NOTE

The fine-tune dial operates within the tempo range that is defined on the setup page.

Setting the Time Signature

You can set the upper and the lower numeral of the time signature independently.

NOTE

The time signature is set to 4/4 when the app is opened.

PROCEDURE

1. On the metronome page, tap on the time signature field.
2. Set the upper and the lower numeral of the time signature.

3. Tap the confirm button to apply your settings.
-

Accenting Beats

Smart Click allows you to accent or mute beats.

- To change the pitch of a beat or to mute a beat, repeatedly tap the corresponding beat segment on the metronome page.

Setting the Volume

Smart Click allows you to set the internal volume of the metronome independently of the device volume. This is useful when running Smart Click parallel to other music apps, for example.

PROCEDURE

1. On the metronome page, tap on the volume button.
2. Turn the volume dial to the volume that you want to use.

3. Tap the confirm button to apply your settings.
-

Muting the Metronome

To mute/unmute the metronome, do one of the following:

- Tap longer on the volume button.
- Tap the volume button and then the mute button.
